

PETKEEPER SECRETS PET ODOR & STAIN REMOVER

Instructions for use

For preloaded bottle: just add HOT water. Shake bottle before use.

For refill PACKS: add HOT water to the bottle. Pour one PACK into spray bottle. Shake bottle before use.

(If re-using any plastic bottle please clean and rinse out thoroughly before use.)

The trigger sprayer head can be turned to open the spray pattern wider, narrower, or off.

Protect surfaces that cannot get wet such as unfinished wood and delicate fabrics.

Color test on carpet and upholstery in an inconspicuous area before use.

To remove surface pet odors and stains:

- **How to remove spots on carpet:**

1. Scrape up any solids (vomit, feces etc.)
2. Spray a circle, using the product, around the spot so urine or solids won't spread.
3. Blot up any liquids (urine etc.) carefully with a towel or absorbent material. Press gently with your foot or hand in the beginning. What you want to avoid is forcing the liquid deeper into the carpet.
4. Continue applying pressure, with another absorbent towel until no more liquid is absorbed.
5. Next, spray PetKeeper Secrets in a circular motion around the spot, spiraling toward the center.
6. Wait a minute.
7. Blot the area again (don't scrub or rub carpet because carpet fibers could become fuzzy).
8. Rinsing not required.

- **For stains:** repeat the entire procedure, but be sure to let the product sit for at least 10 minutes. Then repeat the process. Your stain will be either gone or greatly reduced. Old set in or deep stains require more treatments to be removed effectively.

To remove airborne pet and other odors:

- 1.) Spray a light mist into the affected room
- 2.) Start high and spray with a sweeping, back and forth motion.
- 3.) Repeat as needed.
